

# Soft and Hard Tissue Management in Dental Implant Surgery

HANDS-ON COURSE  
ON FRESH HUMAN CADAVERS  
(NOT EMBALMED)

# Course Info

## Course Name

Soft and Hard Tissue Management in Dental Implant Surgery

*Hands-On Course on Fresh Human Cadavers  
(not embalmed)*

## Faculty

Prof. Dr. Mazen Tamimi  
Prof. Dr. T. Burak Özçelik  
Dr. Becen Demir  
Dr. Goran Stefanovski

## Educational Director

Dr. Mustafa Bekerecioğlu  
mustafa.bekerecioglu@vyg.com.tr

## Operational Director

İlhan Köse  
ilhan.kose@vyg.com.tr

## Duration

2 Days, 7 Hours a Day (Total: 14 Hours)

## Date

13<sup>th</sup> & 14<sup>th</sup> November 2020

## CPD Hours

Participants will be awarded 12 CPD hours

## Venues

Double Tree By Hilton Istanbul Esentepe  
Medipol University Anatomy Lab

## Teaching Method

- Theoretical Lessons
- Hands-on practice on jaw models
- Live demonstrations on fresh human cadavers
- Hands-on practice on fresh human cadavers (not embalmed)

## Language

Course will be delivered in English

# First Day (Theoretical & Practical)

13 NOVEMBER 2020, FRIDAY / GRAND CEVAHIR HOTEL & CONVENTION CENTER

## SURGICAL SESSION

09:00 – 09:15	Dr. Becen Demir & Michaela Pavlic Welcome speech Course introduction
09:15 – 10:00	Dr. Goran Stefanovski IMPLA-System product description
10:00 – 10:30	Dr. Becen Demir Anatomy 101 - Danger zones for an implantologist Dental Implant 101
10:30 – 10:45	Dr. Goran Stefanovski My first implant & bone regeneration and materials
10:45 – 11:00	Coffee Break
11:00 – 12:30	Dr. Mazen Tamimi Sinus elevation and single-stage surgical implant placement with a titanium osteosynthesis bar
12:30 – 13:30	Lunch Break

# First Day (Theoretical & Practical)

13 NOVEMBER 2020, FRIDAY / GRAND CEVAHIR HOTEL & CONVENTION CENTER

## THEORETICAL SESSION of PROSTHODONTICS

- 13:30 – 14:30 Dr. T. Burak Özçelik  
Complex cases in dental implantology  
Planning: Tomography assisted surgical guides  
Aesthetic of prosthesis in dental implantology  
Strategies for complex cases in the clinic
- 14.30 – 14:45 Coffee Break
- 14:45 – 15:45 Dr. T. Burak Özçelik  
Procedures of screw-retained prosthesis  
When would we prefer cantilever dental implant bridges?  
Implant supported fixed prostheses and bridges in the edentulous mandible and maxilla  
Planning principles of implant-supported prosthesis
- 15.45 – 16:00 Coffee Break

## PRACTICAL SESSION of PROSTHODONTICS

- 16.00 – 16:15 Ulrich Rädler  
Introducing prosthetic parts of Impla Dental Implants
- 16:15 – 17:45 Dr. T. Burak Özçelik  
Impression techniques for implant dentistry on plastic jaw models  
Open and closed tray impressions techniques for fixed implant-supported prostheses  
Placing implant analogs
- 17:45 – 18:00 Questions & Answers

## Second Day (Practical)

14 NOVEMBER 2020, SATURDAY / MEDIPOL UNIVERSITY ANATOMY LAB

- |               |   |
|---------------|---|
| 09:00 – 09:15 | Dr. Becen Demir<br>Welcome Speech<br>Safety & Law instructions<br>Introducing equipments and materials                                  |
| 09:15 – 10:45 | Dr. Becen Demir<br>Dissection of anatomical danger zones in mandible and maxilla<br>Suturing techniques / Practices                     |
| 10:45 – 11:15 | Coffee Break  |
| 11:15 – 13:00 | Dr. Mazen Tamimi<br>Maxillary sinus elevation and single-stage surgical implant placement with a titanium osteosynthesis bar techniques |
| 13:00 – 14:00 | Lunch Break   |
| 14:00 – 15:00 | Dr. Becen Demir<br>Implant placement  |
| 15:00 – 15:30 | Coffee Break  |
| 15:30 – 17:00 | Dr. Becen Demir<br>Epithelial-Connective tissue graft harvesting techniques from the palate   |
| 17:00 – 17:15 | Completing works & Processes<br>Question & Answers  |

# Instrument List for Participants to Bring

Dear Colleagues,

During the course we are offering all instruments which you need, but they may be of less good quality as you are used to. Therefore we recommend, if you don't mind, to bring some of your own instruments with you.

Thank you for your understanding.

- 2x Langenbeck hooks, long and short branch
- 2x Rasp, wide and small
- 2x Forceps, surgical, long and short
- Forceps, anatomical
- Needle holder
- Scissors
- Skalpel blades Holder
- Excavator
- Extraction forceps (universal)
- Dental probe
- Dental mirror
- Round drills different diameters
- Bone drills – fissure drills – different sizes for bone block harvesting
- Protecting glasses
- Hammer and chissels in different sizes
- Instruments for preparation of the sinus membrane
- Luer forceps

# FAQs

## **Are the skulls embalmed and can I get diseases from the cadavers?**

The skulls are not embalmed and have been frozen before use in the dissection room. The skulls are washed and prepared before the course and are handled in the most aesthetic way to make sure that the dignity of the donor is respected. No information will be provided to you about the donor's history. All donors have no record of infectious diseases; nevertheless you are instructed to handle with care.

## **How many doctors are assigned to a cadaver?**

There are just two doctors assigned to each cadaver, which makes the hands-on course unique.

## **How much hands-on dissection will I perform?**

70% of the seminar is hands-on dissection 30% is a lecture with instructual information and recorded "master-dissection"

## **How can I arrange to dissect on the same cadaver with a friend?**

Table assignments are free of choice to you

## **Can I take photographs of the cadaver or of the surgical procedure?**

Respect for the bequeathed does not allow for still or video photographs in the dissection room.

## **What kind of clothing should I wear?**

Casual, comfortable clothes are suggested. Remember that you are a guest of a University so please dress appropriately. You will not be permitted in the Lab with shorts, sandals etc. Preferably some type of sport shoe, since the floors are slippery when wet.

## **Should I be concerned about my anatomy knowledge?**

There is absolutely no need to be intimidated or concerned with your anatomy knowledge because we will guide you through the entire dissection process. We know your needs and how to meet them.

## **Is there a written test during or upon completing the seminar?**

No test is given during or at the end of the seminar.

## **Is there additional staff to help me?**

The support staff for the seminars is a team of highly skilled and experienced professionals that have been involved with these kinds of seminars for years.

## **How long have you been conducting this kind of seminar?**

We have been conducting postgraduate seminars specifically designed for dental surgeons and facial surgeons since 2010.

# Faculty

## **Prof. Dr. Mazen Tamimi, PhD**

### ***Oral and Maxillofacial Surgeon***

# VESTA & Knightsbridge Academy

We all aware that, to perform profession, graduating from a dental or medical school and enriching knowledge acquired throughout education life by 30-35 years of experience is not valid any longer.

As Information changes and progresses so fast in this new era, dentists need continuing post-graduate education to update their knowledge, to access new information or to take the advantage of expert experience, just as how they have to constantly renew equipment in their practice and add new things.

This necessity is exactly what VESTA Academy and Knightsbridge Academy (KBA) were emerged from. In order to provide doctors with respective needed knowledge from reliable sources and via safe channels.

Vestiyer Publishing Group (VPG) have decided to create a unit operating post graduate dental education focused activities within the Group in 2005.

VESTA Academy backed by Vestiyer Publishing Group's experience began to grow rapidly in a very short time introducing international trainings which drew great interest of dentist worldwide.

In 2010, Knightsbridge Academy was established by VPG in England, UK to provide first quality comprehensive international courses for dental and medical professionals.

VESTA Academy & Knightsbridge Academy offer variety of trainings on dental and paradental fields to the attention of dentists and team members.

VESTA & KBA have conducted hundreds of training seminars and conferences for

dentists and their assistants. Thousands of participants from Turkey and all over the world preferred VESTA & KBA to improve, update and strengthen their education.

As one of our postgraduate dental & medical courses, we have been organizing Cadaver Dissection Courses at Anatomy Training Center of Vienna Medical University since 2010. Recently, we are also proud to announce our high quality implantology courses on fresh human cadavers in Istanbul, Turkey and Coventry, UK.

VESTA & KBA have determined a one-sentence mission: *For a better dentistry and medicine, continuing postgraduate education.*

## Vestiyeer Publishing Group

Vestiyeer Publishing Group made its way into publication world by publishing The Journal of Dentistry in 1989.

Success of The Journal of Dentistry paved the way for emergence of nine different scientific and industrial dental periodicals on coming years.

In addition to producing its own content, VPG also has provided readers in Turkey by worldwide well-known major dental journals.

With the strength that comes from the success of Periodicals, under the name of "Dentist Library" it has published a series of books which include scientific in-

formation, as well as a variety of professional information essential for dentists.

In 30 years, VPG who has a wide range of publications; from social problems to the psychological problems of dentists, from designing practice to the legal responsibilities, from occupational diseases to patient relationships, with its constantly updated database, has formed a well distribution network in dental industry.

VPG serves as a communication and information bridge between the universities and companies in the sector, civil society organizations and dentists.

Vestiyeer Publishing Group has

nine different publications which are dental industry-specific:

- Journal of Dentistry
- The Turkish Journal of Dentistry
- Dental Tribune
- Implants
- Dental Labor
- Roots
- Cosmetic
- Today
- PNV
